The image shows a web browser window displaying a world map visualization. The browser's address bar shows the URL 'hdlab.stanford.edu/palladio-app/#/visualization'. The page has a navigation menu with tabs for 'Data', 'Map', 'Graph', 'Table', and 'Gallery', with 'Graph' currently selected. A toolbar at the top right includes a 'Download' button and a version indicator 'v 1.2'. The map itself is a world map with numerous data points, each represented by a small circle and a numerical value. The points are distributed across the globe, with higher concentrations in certain regions. Below the map, there are filter options for 'Facet', 'Timeline', and 'Timespan', with a message stating 'You have no active filters'. At the bottom of the browser window, the taskbar shows several open applications, including 'Document - Wor...', 'Palladio - Google...', '53CAM', 'Net-Attendance-...', and 'Document1 - Mic...'. The system clock in the bottom right corner indicates the time is 4:34 PM on 11/11/2018.
